

# Bataille des perles cachées

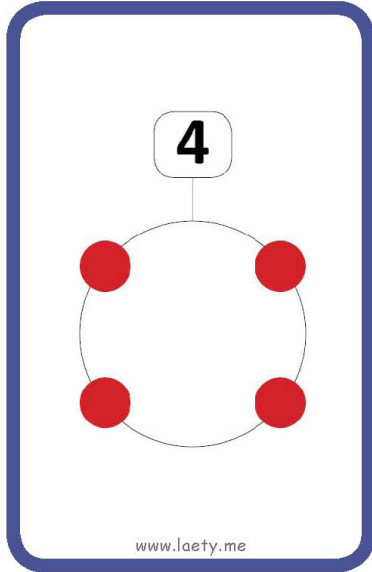

---

## Règles du jeu

- 1/ Distribuer toutes les cartes en nombre égal entre les joueurs.
- 2/ Faire une pile retournée avec ses cartes.
- 3/ Chaque joueur prend une carte en haut de sa pile et la pose face visible.
- 4/ Le joueur qui a la plus grande « quantité cachée » de perles a gagné et ramasse toutes les cartes.  
La « quantité cachée » est la quantité (nombre) de perles rouges cachées sous la partie grise avec le point d'interrogation. Ce nombre est donc à anticiper et à annoncer par le joueur.
- 5/ Le joueur ayant le plus de cartes à la fin de la partie a gagné.

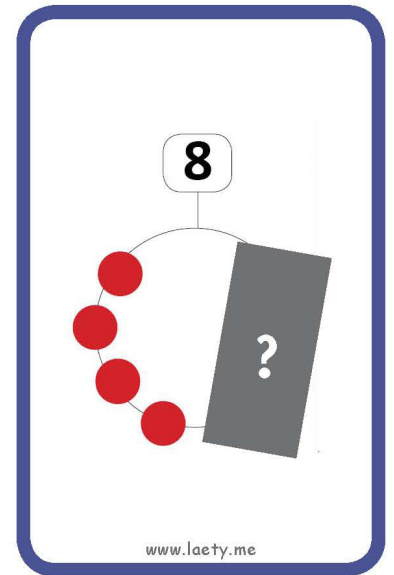

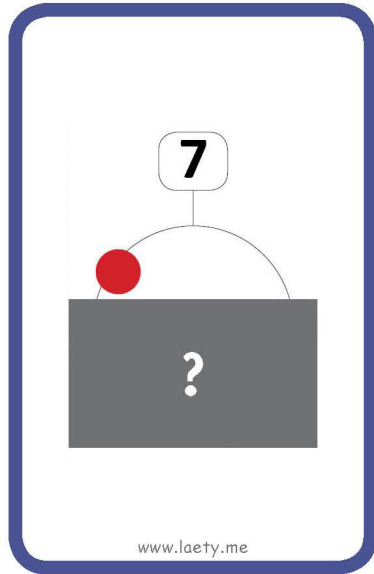

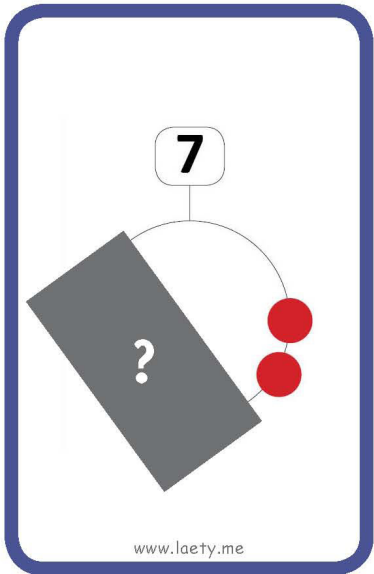

**VARIANTE** : Chaque joueur doit poser 2 cartes en même temps ! Il faut donc additionner toutes ses perles cachées pour annoncer son nombre !

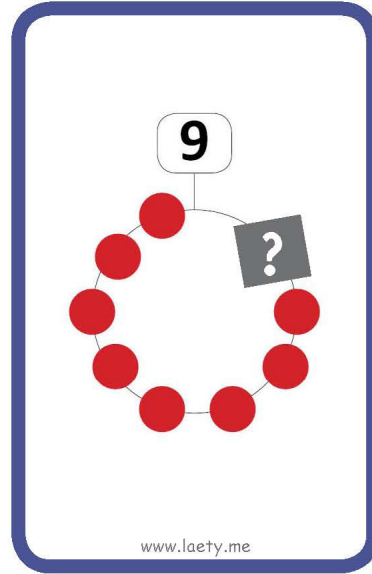

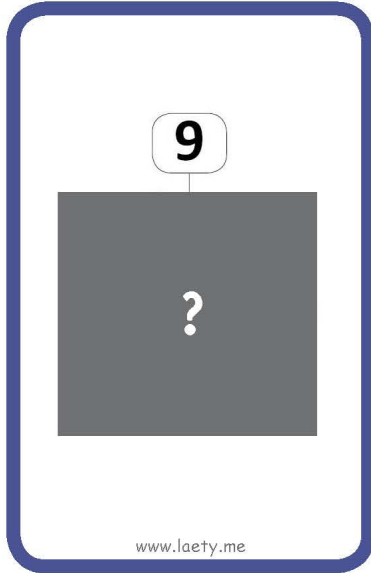

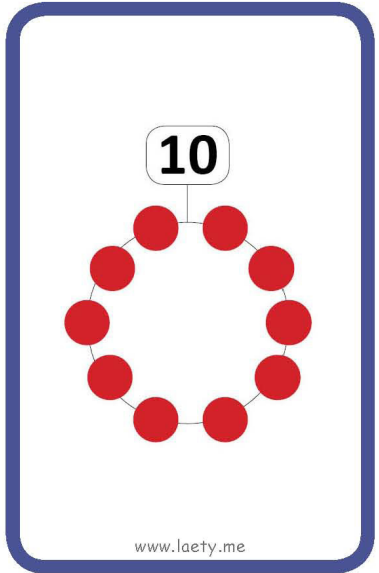

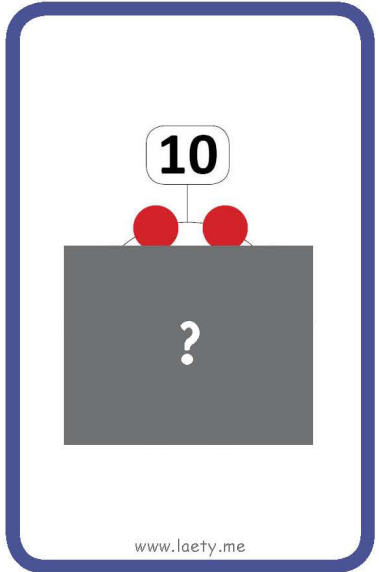

10
